The doctor would remind all those who are in need of medical aid, that since relinquishing his very extensive and successful practice in San Francisco, he has visited the principal cities in Europe, inspecting dili-gently the most renowned hospitals, and gathering the ex-perience of the most learned in the profession, the benefit from which he offers to all in need of his services. INFORMATION WANTED.

SAMUEL MURRAY CARR, A CAPTAIN in the New Hampshire regiment commanded by ex-Governor Harriman, deserted his wife in 1867. Murray assumed the name of L. N. Carter, and went to New York with a woman named Mary Jane Burpee, taking also his children, Lizzie Florence, aged 7½ years, and his two sons, Fred Elmer and Frank Weston Carr, the boys being yeunger than their sister. Carr, with the children and Burpee woman, left New York on the steamer "Henry Chauncey," having purchased through tickets to Wellington, New Zealand. It is reported that the children have been sent to a Catholic school, and one George E. Lane wrote from San Francisco to New Hampshire, in 1887, that he had recog-nized Carr, alias Carter, in a theater in that city. Carr-alias Carter, has since been heard of in Texas, it being said that he and Lane were faro dealers there. In Texas, as also in Colorado, Carr was known as Steele. Carr's wife is a nurse in San Francisco, a heart-broken woman seeking her children, and desiring to obtain news of her offspring. begs the press to circulate the above. Any intelligence regarding Carr, or more particularly his disposition of the shildren, if forwarded to H. R. MIGHELS, editor of the MORNING APPEAL, Carson City, Nevada, will be thankfully received and promptly transmitted to the mother.

The most profitable plan for operating in stocks is that of uniting capital of various sums by combining or pooling the orders of thousands of customers and using them as e mighty whole, which has been done so successfully by Messrs. Lawrence & Co., Bankers, 57 Exchange Piace, New York City. By this co-operative system each investor is placed on an equal footing with the largest operator, and profits are divided pro rata among stockholders every 30 days. An investment of \$10 would pay \$50, making 5 per cent, on the stock during the month. \$25 would return \$150, or 6 per cent.; \$100 would make \$1,000, or 10 per cent., and so on, according to the market. Frank Leslie's Illustrated Newspaper, June 20th, says: "The Combina-tion method of operating in stocks is the most successful ever adopted." New York Independent, September 12th. says: "The combination system is founded upon correct business principles, and no person need be without an in-come while it is kept working by Messrs. Lawrence & Co." Brooklyn Journal, April 29th, says: "Our editor made a net profit of \$101.25 on an investment of \$20 in one of Messrs. Lawrence & Co.'s combinations." The firm's new circular (copyrighted and sent free) contains "Two unerr ing rules for success in stock operations," and explains ev-erything. All kinds of Stocks and Bonds wanted.
